Apartment Lifts

Our elevators are aesthetically pleasing to the eyes and are designed to meet the requirements of the facilities in the building and customers. Keeping in mind durability, style, comfort and cost efficiency, the main priority for us at Emperor Lifts is to deliver the best quality products and services to the people in the apartment, and those visiting. Your apartment's gift, our Emperor Lift!

FEATURES

Automatic Rescue Device

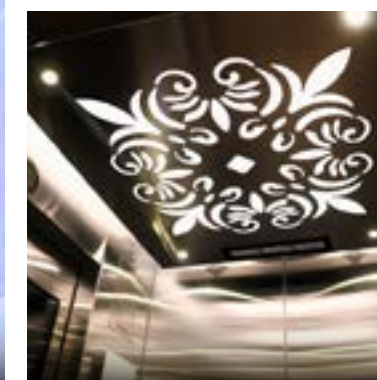

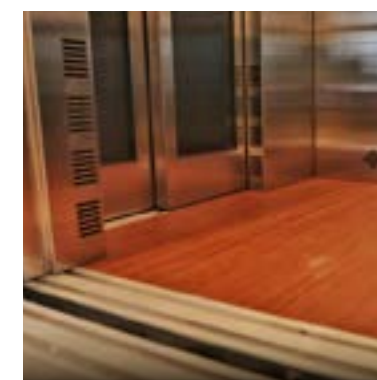

Noise-free performance

Overspeed Governor

Faster travel upto 2m/s

Controller panel in door frame model

Long lasting durability

Hospital Lifts

Human life is of utmost importance and value. Hospitals need elevators that function in a manner that ensures safe and dignified care for its patients. Our service team is present round the clock to ensure uninterrupted functioning of the elevators at your facility. We customize our elevators to fit the stretcher and passenger capacity as required by each hospital. Our elevators perform impeccably in your hospitals, making it one less problem to worry about.

FEATURES

Wheelchair accessible

Stretcher bed accessible

Wide entrance design

Ambient lighting

Advanced door sensors

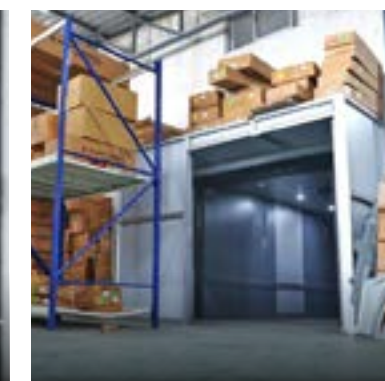

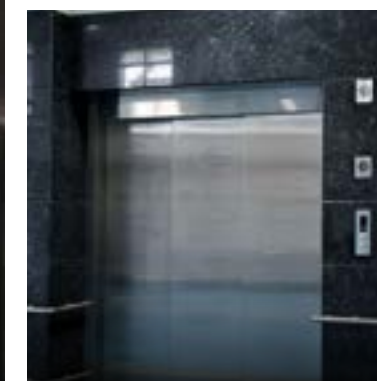

Smooth acceleration and landing

Freight Lifts

Our goods lifts are dependable and durable, allowing for the safe and efficient movement of goods between various floors of your building. We provide goods lifts that can be used for both passenger and goods or only for goods. The cabin height and size can be customised based on the size of goods that are transported. Our dependable workhorses are a low-cost solution that will handle your loads for many years.

FEATURES

- Sturdy and rugged design
- Passenger friendly
- Chequered flooring in SS and MS
- Automatic door hold function for loading
- High carrying capacity up to 10 tons
- Custom made cabin sizes

Home Lifts

Home is the place that our family spends the most time. Emperor lifts makes sure that each of your family member's needs are met with style and elegance. We cater to all age groups, be it safety for children and pets, or ease and comfort for the elderly. With our versatile elevators, you can customize them to suit the aesthetics of your interiors. There is no place like home. Add grandeur to your space with our lavish range of home elevators.

FEATURES

Design to suit your interiors

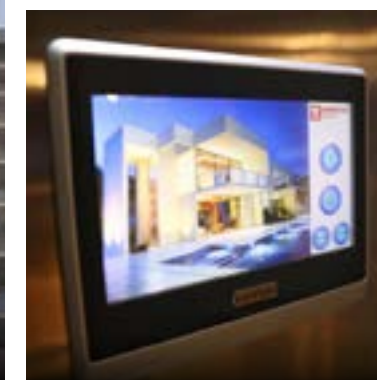

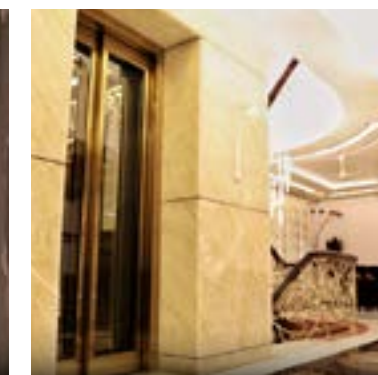

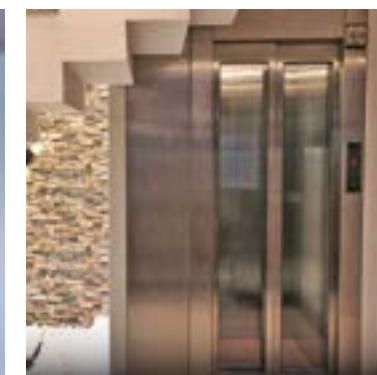

Space efficient

Wheelchair accessible

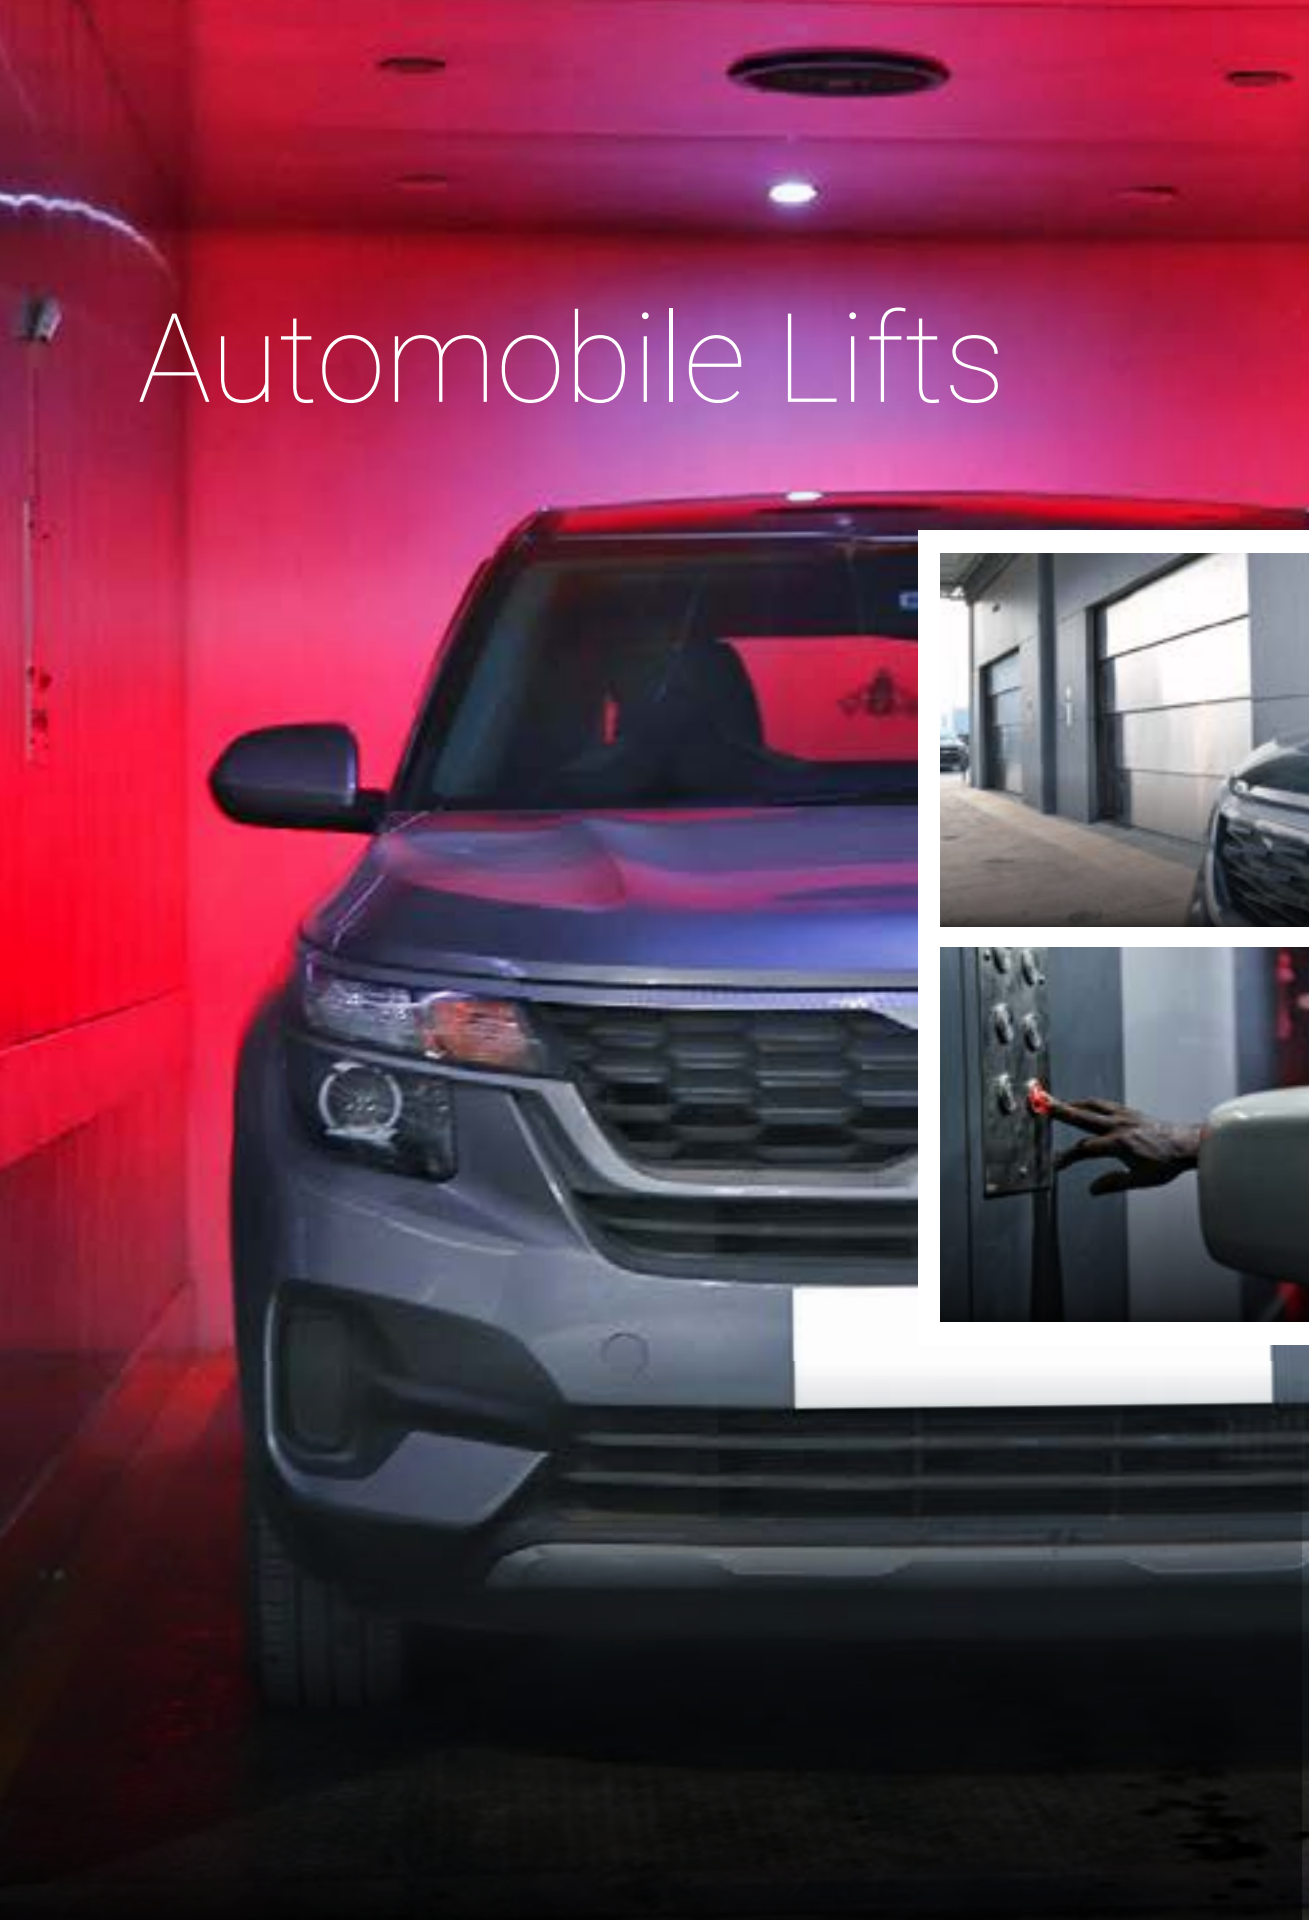

Can fit any home

Can serve any number of floors

Child safe, pet safe

Automobile Lifts

We use automobiles for road transportation, but sometimes the automobiles require vertical transportation too. We offer state-of-the-art elevators which are big enough to carry cars of the biggest sizes as required by you for your car showrooms, garages, homes and more. Make use of multiple floors by effectively moving cars along with rider from one floor to another, significantly helping to save space in your facility.

FEATURES

- Huge cabin sizes for the biggest cars
- Accessible floor control from car
- Rugged flooring design
- Space efficient vertical door design
- Smooth and noise free operation
- Easy maintenance

Dumbwaiter

Mostly used in restaurants, breweries and warehouses, they are small elevators to move your goods between floors effectively. They act as your silent and unseen waiter to move from your restaurant to the kitchen and back. It's become a dependable workhorse and is essential for catering businesses operating from multiple floors. Our dumbwaiter lifts can be designed to fit and carry any type of goods as per your purpose.

FEATURES

- Fit any size
- Fully automatic control
- Vertical opening doors
- Durable push buttons
- Easy clean SS finish
- Low maintenance
